The Wood-Gas Controversy. A Carried on by some persons interested in wood-Gas Patents; and we perceive that the smoke of their cannon has somewhat obscured their vision. Dr. C. G. Page, as the attorney for W. P. McConnell, having presented his claims through our columns, L. R. Breisach, of this city, has presented those of Pettenkofer & Ruland, or Bavaria—he being their assignee—through the columns of the Daily Times of the 3d instant. He states that the first patent for the Bavarian invention was issued on February 24, 1851, an authenticated copy of which has been filed in our Patent tion was issued on February 24, 1851, an authenticated copy of which has been filed in our Patent Office; also, that the claims of his assignors were filed in the office, to protect their rights, more than a year ago. As no patent can be obtained for making or using Wood-Gas, the disputed point relates to the apparatus, which embraces the reheating of the gas—passing it over a red-hot surface in its way to the cooler—after it is generated; this is clearly stated in Dr. Page's letter, on page 50. Now, as McConnell claims to have invented the apparatus for reheating Wood-Gas, as far back as 1849—two years previous to the granting of the Bavarian patent—and as he obtained a patent for the same, on the 26th day of September last, although contested by Pettenko fer & Ruland, we cannot well conceive who L. R Breisach wants to frighten, by declaring, through the columns of the Times, that he will prosecute the violators of the Bavarian invention. He gives the violators of the Bavarian invention. He give this notice to all who take an interest in the intre this notice to all who take an interest in the intro-duction of this invention, but, in doing so, he for-got to present any fact upon which the public can rely, to show what patent rights he possesses. When he again writes to inform the public that he has certain patent rights, and will prosecute these who infringe them, we hope he will be so good as to state what these rights are, so that the public may know what he mean. may know what he means .- Scientific American.

toils, together with a desire to extend its influence, has had much weight in the decision which we have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patronage, without interfering with the claims or rights of any now presecuting the same great work.

Although mainly deveted to the discussion of such political questions, as they arise, which affect

Although mainly deveted to the discussion of such political questions, as they arise, which affect the welfare of North Carolina, whether relating to the federal or State governments, or such local interests as may be of importance, it is nevertheless intended to make the Statesman a medium of general intelligence. Accordingly, the state of the markets in the principal cities, to which sur commerce goes, shall be fully and accurately reported; nor will the attention of the conductors be less addressed to the subject of internal improvements, as a means indispensable to the development of the mineral and agricultural resources of the State. These interests, of primary importance, shall always command their fullest attention. To this they propose to add carefully selected and original literary matter. Being strictly conservative, they propose to avail themselves of all the lights of experience, in that progress, which promises the ad-

literary matter. Being strictly conservative, they propose to avail themselves of all the lights of experience, in that progress, which promises the advancement of the interests of North Carolina.

The general objects of the proposed paper being thus clearly indicated, it may not be amiss briefly to state the particular views which are to be sustained by it as a political journal.

1st. Our purpose being to publish a paper purely democratic, according to the straightest requirements of that party, we shall advocate strict party organization in its fullest and most comprehensive sense; an organization which originates in the popular will, expressed by the people in their primary assemblies, and which has been so successfully introduced among the democracy of many of the ether States, by which the rank and file of the party are, in fact, those who indicate its decisions, and, being all brought into action, express their will imperatively; thus, by open and fair dealing, commanding respect and obedience; an organization of the people, and not of intriguers; restoring power to those who, by sufferance, have telerated its temporary usurpation.

2d. The democratic party shall always find in us advecates of their right to select their standard

2d. The democratic party shall always find in us advecates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primary meetings. Standing upon the good eld State rights platform of '98, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of finance, or any other measure inconsistent with the rights of the States. of the States.

3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the present administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy. 4th. They will advocate all such measures of in ternal improvement as promise by judicious prose-cution to promote the interests of the people and diffuse the benefits of a system already enjoyed by

diffuse the benefits of a system already enjayed by portions of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we believe it should be at once met and settled. The unjust and unequal legislation of Congress, in relation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the proceeds of their sales to the payment of the public debt, and the expenses of the government. It has for some time ceased to be ment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there the accommodation of the public, the undersigned has determined to run the steamer GEORGE will ever be a return to a policy which had so much to recommend it. Believing that this sysmuch to recommend it. From Washington, 6½, 8, 9½, and 11½ a. m.; continue but to grow worse, we shall precest against it, and assert the right of the old States to their equitable share of the lands which remain. The power "to dispose of the public lands being explicitly declared in the Constitution, the exerexplicitly declared in the Constitution, the exercise of that power is a question of policy, both as to the time and the mode." Believing, as we do that it has become the settled policy of Congress to squander the public lands, we adopt the patriotic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and democrats, should protest, and demand North Carolina's share of the public domain."

6th. Approving of the sentiments of the inaugural of the President, we shall oppose the acquisition of Cuba or any other foreign territory, unless such acquisition be in accordance with existing treaties, and entirely consistent with the national honor.

stored and Life Lengthened, by Dr. Morse's Invigorating Elixir or Cordial.

A T first the properties attributed to Professor Morse's Invigorating Elixir or Cordial were deemed fabulous. The public often deceived could not believe the simple and sublime truths announced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now triumphing over all doubts. Incredulity is overthrown by a mass of testimony which is perfectly irresistible.

The Elixir remedies in all cases the deplorable evils arising from a misuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the reproduction of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the over-worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trified with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Elixir deals with disease as it saturate, without reference to causes, and will not only remove the disorder itself, but REBUILD THE BROKEN CONSTITUTION. The derangements of the system, leading to nervous diseases, and the forms of nervous diseases, and the forms of nervous diseases.

The derangements of the system, leading to nervous diseases, and the forms of nervous dis-The derangements of the system, leading to nervous diseases, and the forms of nervous diseases, and the forms of nervous diseases itself, are so numerous that it would require a celumn to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia tic-doloureux, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debuity, tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep, and terrifying dreams, inability to remain in one place or position, weaking of the procreative organs, sexual incompetency, melancholy, monomania, fluor aibus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free from malformation or strictural diseases, it is averred that

MORSE'S INVIGORATING ELIXIR

MORSE'S INVIGORATING ELIXIR Will replace weakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. Bear in mind that all maladies wherever they begin, finish with the nervous system, and that the paralyzation of the nervous of motion and sensation is physical death. Bear in mind, also, that, for every kind of nervous disease the Elixir Cordial is the only reliable preparation known.

CURE OF NERVOUS DISEASES.

No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated, and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, revivified, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is permanent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition. Well may the preparation be called the CURE OF NERVOUS DISEASES.

Of the nineteenth century. It is, as the first scientific man in the world would have admitted, that miracle of medicine heretofore supposed to have no existence.
A STIMULANT THAT ENTAILS NO RE

ACTION.

Its force is never expanded, as is the case with opium, alcoholic preparations, and all other excitants. The effect of these is brief, and it may well tants. The effect of these is brief, and it may well be said of him who takes them: "the last state of that man is worse than the first." But the Elixir is an exhilarant without a single drawback—safe in its operation, perpetual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove depressions, excitement, a tendency to blush, sieeplesaness, dislike of society, incapacity for study or business.

INVIGORATING CORDIAL,

DURELY Vegetable in its composition. This invaluable Cordial is extracted som Herbs and Roots, which have been found after years of experience, by the most skillful physicians, to be possessed of qualities the most beneficial in the diseases for which it is recommended; and hence, whilst it is presented to the public as an efficacious remedy, it is also known to be of that character on which reliance may be placed as to its safety. In cases of impotency, Hemorrhages, Disordered Sterility, Menstruation, or Suppression of the Menses, Fluor Albus or Whites, or for Debility arising from any cause, such as weakness from sickness, where the patient has been confined to bed for some time, for females after confinement, abortion or miscarriage, this cordial cannot be excelled in its salutary effects; or in loss of muscular energy, irritability, physical prostration, seminal weakness, palpitation of the heart, indigestion, stuggishness, decay of the procreative functions, servousness, &c., where a ronk medicine is required, it will be found equal if not superior to any compound ever used.

To Females—Henry's Invigorating Cordial is one of the most invaluable medicines in the man complaints to which females are subject. It as siste nature to brace the whole system, check excesses, and creates renewed health and happiness Less suffering, disease, and unhappiness among ladies would exist, were they generally to adopt the use of this cordial. Ladies who are debilitated by those obstructions which females are liable to, are restored by the use of a bottle or two to bloom and to vigor.

THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina Statesman, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and the public.

Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard principles which we have always held, and regard as the only basis of prosperity in our form of government, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the seat of the State government. In the field of editorial enterprise, there is ample room for those who are now holding position, as well as for others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attractions of the editorial profession and its honorable toils, together with a desire to extend its influence, has had much weight in the decision which we
